## Certificate of Affiliation - Federación Deportiva Peruana de Quidditch

### To Whom It May Concern,

I, Oda Helene Schiøtz, am writing to you on behalf of IQA Sport, Inc., also known as the International Quidditch Association (IQA). The IQA is the international organization of quidditch, which works to develop quidditch as a sport worldwide. We work with the National Governing Bodies (NGBs) of quidditch to aid in their expansion. Amongst other things, we publish an international rulebook that provides a safe way to play quidditch, and which we revise on a regular basis. We also work to promote the values of quidditch – inclusivity, integrity, and accessibility – throughout the community. Lastly, and perhaps most importantly, we are the association responsible for organizing international quidditch tournaments, such as the IQA World Cup (most recently: Florence, Italy, 2018), the European Games (upcoming: Bamberg, Germany, 2019), and the Pan-American Games (upcoming: Richmond, USA, 2019).

We are writing you this letter to state that we recognize the Federación Deportiva Peruana de Quidditch as the National Governing Body of quidditch in Peru. We do so in the hopes that this will aid Federación Deportiva Peruana de Quidditch in becoming a fully recognized organization in Peru and, in turn, allow it and its teams to apply for funding and obtain other benefits that go along with being a recognized association.

Federación Deportiva Peruana de Quidditch currently holds the status of Associate Member within the IQA. This represents the fact that the IQA has seen significant growth of quidditch within the country over the past years. As of yet, Peru has not been able to field a team at any of the major international tournaments, however, we hope and expect them to be able to attend the IQA World Cup 2020 that will be held in Richmond, Virginia.

We believe that quidditch in Peru has much potential and that becoming a fully recognized organization will be beneficial to its ability to grow, expand, and attend international events. Not only do we believe that this will be beneficial to Peru, but the numerous other quidditch communities within South America, such as Argentina, Chile and Brazil. We believe that Federación Deportiva Peruana de Quidditch is an important component to this quidditch region and its success.
